

A citizens' initiative to build a better Richmond!

Imagine a Richmond that can:

- train and employ thousands of youth
- have recreation centers and libraries open day and night
- fix all the streets and keep them fixed
- double or triple violence prevention outreach
- create beautiful common space in each neighborhood

If you think Richmond can't afford to do this, think again! We have untapped wealth right here in our city. For example, the **CHEVRON** corporation is able to make over one million dollars in profit every half hour, partially because its Richmond refinery has a prime location on the San Francisco Bay.

The people of Richmond can determine the terms and conditions under which companies may operate within our city limits. People continue insisting that Chevron reduce their greenhouse gas emissions and all the other pollutants they inflict on us. **And people also can:**

Vote YES! on Measure T

A FAIR SHARE FOR RICHMOND is a citizens' initiative by the people of Richmond and **endorsed** by Mayor Gayle McLaughlin, Councilmembers Tom Butt and Tony Thurmond, former Mayor Rosemary Corbin, Supervisor John Gioia, the Richmond Progressive Alliance, the Sierra Club, Richmond Vision 2000, Mexican American Political Association MAPA – Richmond, West County Toxics Coalition, Richmond Greens, Atchison Village Environmental Committee, SEIU Local 1021 – Richmond Chapter, AFSCME Local 44, AFSCME Council 57, Concilio Latino, Laotian Organizing Project of Asian Pacific Environmental Network, and thousands of neighbors

A FAIR SHARE FOR RICHMOND Creates JOBS, a cleaner more peaceful community, and a brighter future
