

# **No MORE POLLUTION! NO CREMATORIUM!!**

**Make your voice heard! Join  
Communities for a Better  
Environment in stopping a  
Crematorium from opening in our  
community**

**What: Hearing in front of the Planning  
Commission**

**Date: Wednesday, August 29**

**Time: 6pm**

**Where: Oakland City Hall**

East Oakland is in the midst of a transformation. Residents are striving to realize their vision of a vibrant community. Yet a crematorium, claiming to be an ordinary manufacturing operation, wants to operate at **9850 Kitty Lane with out giving any notice to the public and with out undergoing an environmental review.**

The City Council adopted an Emergency Ordinance prohibiting any crematoriums from opening without getting a Conditional use permit (CUP) that tells the community the impacts of this crematorium and puts conditions in place to protect against those impacts. Yet, Neptune Society, the company who wants to open their crematorium is appealing the ordinance. This **Wednesday August 29, join CBE in putting a STOP to this Crematorium.** Lets speak up as residents whose community **will be negatively affected** by this crematorium. Let the Planning Commission know we don't want a crematorium in our backyards! **NO MORE POLLUTION IN OUR NEIGHBORHOODS!!**
