

# THE PEOPLE'S **Voice**

## AGAINST THE CREMATORIUM

**We don't want more death in our community!**

**Historically the City of Oakland has allowed polluting industries in East and West Oakland, where low-income people of color reside. It has ignored the fact that these areas have higher rates of pollution, and pollution-related disease like cancer and asthma than other parts of Oakland.**

**The Air quality will just get dirtier and we will have more asthma cases in East and West Oakland if things continue the way they have.**

**COUNCIL:** What will you do to stop this crematorium? **STOP NOW!**

---

**RALLY—TUESDAY, MAY 6, 2014**  
**5:00 PM**  
**OAKLAND CITY HALL—** 1 Frank H. Ogawa Plaza, downtown Oakland
